

Next generation solutions to energize your business.

# HD Mini Photo Book

Award winning printing technology brings you a new opportunity.

- 450 ppi silver halide print 'pages'
- binding lays flat allowing for full bleed
- 30 books per hour
- durable, custom hard covers
- embossed text options
- convenient, collectable size 12.7 cm x 10.16 cm

Combine the quality of HD silver halide prints with a durable, custom hard bound cover to create a one of a kind mini photo book product. Now everyone can have gorgeous wedding album quality at an everyday price with the HD Mini Photo Book.

The HD Mini Photo Book begins with 5 x 7.75 inch HD prints made with the Europa high speed digital printer. These rich 450ppi prints bring out the detail and color in an image making amateur prints shine in a small and affordable format.

The prints are bound into a book block using the Express Minibook Maker. The book block is cased into a custom cover. Customers can choose an image for the front cover. This image is then adhered in relief. Complete the cover with deeply embossed text.

# The HD Mini Photobook System
