

Masterpress Specifications

Voltage	230V / 50Hz (110V upon request)
Max. power consumption	1800 W
Avg. power consumption	400 W
Heater surface Hot stamping area	218 x 308 mm
Dimensions (machine)	528 x 408 x 608 mm
Dimensions (stand)	544 x 504 x 667 mm
Max. matrix filling	50%
Machine Net Weight	100 kg
Construction	C frame eccentric press with automatic in-feed of material
Max stamping pressure	5T
Operating Temperature	50 - 150 °C, regulation every 1 °C
Work modes	°C and F
Temperature Stabilization	microprocessor
Languages	English & Polish

- Matrix may be installed across and along the machine
- Space between the matrix and the table is approx. 30 mm

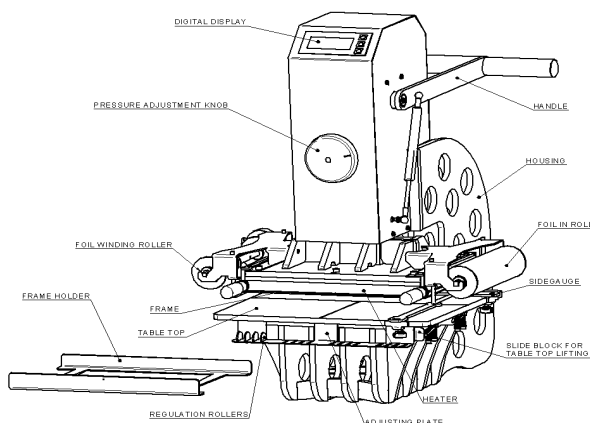

Microprocessor

- LCD display
- Stamping time countdown
- Daily counter to be set for count down or count up with the possibility to correct actual value
- Simultaneous display of required and actual temperature
- Possibility of saving up to 10 programmes (different stamping time and temperature) in the memory plus their descriptions in the program menu
- Automatic winding of foil after every stamp
