

Robocut Digital

An automatic cut and pack system

- PdfDF Compatible
- Modular Design
- Automatically Cuts and Packs digital prints
- Customizable packaging formats and solutions
- Highest flexibility and reliability by Robotic handling

In partnership with

Next generation solutions to energize your business.

RoboCut

The most advanced, compact, high speed and fully automatic Cutter-Packer Station on the market today!

This new generation of Cutter-Packer Station was developed under a Joint Venture with partners of Dohm: Toyotec/SRA and Data Progetti Italy. The system is designed on a platform which allows highest flexibility and reliability by robotic handling. Specialized also for customized packaging solutions. The machine is very easy to use by a front end PC with graphic commands and integrated service programme. Also it is connected by LAN with the integrated BMC using PfDF and TCP/IP, Standard and Online Pricing.
